13th International Conference on

# **Metrology and Properties of Engineering Surfaces**

12 - 14 April 2011

## **Call for papers**

**NPL**   
National Physical Laboratory

  
University of  
**HUDDERSFIELD**

## ***Scope***

The 13th International Conference on Metrology and Properties of Engineering Surfaces will focus on the progress in surface metrology, surface characterisation instrumentation and properties of engineering surfaces. The conference aims to provide an international forum for academics, industrialists and engineers from different disciplines to meet and exchange their ideas, results and latest research.

## ***Call for Papers***

Authors are invited to submit one page abstracts no later than 16 August 2010 by post or using e-mail (MetProp2011@npl.co.uk)

## ***Review and Publications***

Selected papers will be peer-reviewed before final acceptance for publication in the proceedings. The proceedings will be published in a leading journal.

## ***Scientific Themes***

- Surface, Micro and Nano Metrology
- Measurement and Instrumentation
- Metrology for MST Devices
- Freeform Surface Measurement and Characterisation
- Uncertainty, Traceability and Calibration
- AFM/SPM Metrology
- Tribology and Wear Phenomena
- Functional Applications
- Stylus and Optical Instruments

## ***Exhibition***

There will be an exhibition covering the main themes of the conference. It will provide an excellent opportunity to promote products and services to an international gathering of professional engineers, scientists, technologists and educationalists. Contact the Conference Secretariat for further information.

## ***Sponsorship***

A large number of delegates are expected to attend Met & Props 2011 which will therefore provide an excellent opportunity for sponsors to support the events. Contact the Conference Secretariat for further information if your organisation is interested in sponsorship opportunities.

## ***Important Deadlines***

### **16 August 2010**

Submission of short abstracts.

### **15 November 2010**

Notification of abstract acceptance.

All abstracts will be refereed. A critical criterion of acceptance will be originality. A condition of submission is that, if accepted, the paper will be presented at Met & Props 2011 by the author or one of the co-authors.

It is the responsibility of the author to submit a paper written to an acceptable level of English. If the author is unsure, a native English speaker should review the paper prior to submission.
